

I benefit from listening to XM satellite radio and ALL of its channels - including the traffic and weather reports. my job requires that I be on the road weekly and I depend on the accuracy of the weather and news information that i receive from XM

The quality is incredible and I rarely listen to any other stations because I can rely on my XM.

I respectfully urge you to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I and my family demand and deserve.

sincerely

lisa jennings
